PFA = pay for achievements. WILL YOU COME ALIVE... OR WILL YOU DEAD???

PSYCHOPATHICS! THE TERRIFY HORROR GAME NOW ON STEAM!. Best game i ever played cheers!. If you're buying this for the achievements, don't do it, eventually you will stop getting achievements and if will not resume whatever you attempt to do.. Destination Ares is pretty unique in its kind, and even if it sometimes can be unfair and hard to understand, I can only encourage you to try it and see for yourself. Cause when it goes right, it feels so good.

Plus, there is a free version on the creator's site.. This is another very nice loco from Mesh Tools. I really recommend adding it to your steam locomotive shed.. Good story.

You play a young girl washed up on a Island after a unexpected storm. Her boy friend is taken by someone, but you are to weak to do anything. When you come to, you find out that the Island is not what it seems. Their is a big secret and you end up solving it to save your boyfriend.

Nice mix between hidden objects and puzzle.

Very fun. I recommend it.

Overall rating 9/10

Introduces more subtle changes into the game which enable you to fine tune your policies more and win over more people than was possible beforehand. This is a challenging campaign and you will learn a lot about military assets in the mid 1970s. In addition my strategic skills were advanced. However, I would not buy this as a stand-alone package, without the full game and community tutorials I would have spent way more time in forums and YouTube than enjoying this. My suggestion is you find the full game on sale, get good at the interface and tutorials, then add this to your library. Oh...this isn't a dynamic campaign, it's a set story.. this game was amazing

. One of the best story pack of Batman:Arkham Knight but way too short, that counts also for Redhood and GCPD Lockdown..
Frank Perconte: Hey, George.

George Luz: Yeah?

Frank Perconte: Kind of remind you of Bastogne?

George Luz: Yeah, now that you mention it. Except, of course, there's no snow, we got warm grub in our bellies, and the trees aren't ♥♥♥♥ing exploding from Kraut artillery, but yeah... Frank... other than that, it's a lot like Bastogne.

Shoot krauts, reload gun, shoot krauts again. My friends judge me,
I judge me,
But I don't care...

Just leave me alone so I can spend an hour putting logs in a woodchipper.. it is very very bad. there is a white tent on all over the screen. the dimentions is bigger than normal. it is like playing normal game with some 3d converter like tridef. i dont recommend it to any one.
